Are you concerned about climate change?

Do you want to know how you and your community can help?

Do you have ideas you would like to see implemented?

Come and listen to Garry Middle discuss:

- specific actions already happening around Australia on climate change and toward carbon neutral
- what local governments are doing across Australia to adapt to climate change and address mitigation
- what our local government could do
- the opportunities that climate change adaptation will provide the local community

Garry is a Balingup resident with 30 years of experience in environmental planning and consultancy. He has worked for State Government, as an academic at Curtin University, and for the WA Local Government Association. He has worked on climate related projects since 2004 and has recently published a book, *Climate Change Adaptation Planning for Local Government: A Manual for the Preparation of Action Plans*.
